Mount Pleasant, SC - New from local author Gene Woodwick is *Ocean Shores*, the latest title in Arcadia Publishing's *Images of America Series*. *Ocean Shores* boasts more than 200 vintage black-and-white photographs along with a supportive narrative. Ocean Shores was the newest city in Washington for nearly 40 years, but for centuries before it had been a place of permanent occupation and food gathering for Native American tribes and a place for sea otter hunters, pioneers and settlers to reach the interior of the Olympic Peninsula. Before Ocean Shores, there was the dream of a town called Cedarville followed by the reality of Lone Tree with its post office and 200 residents. Point Brown Peninsula was a village of survival for Polynesian Kanakas, Finns living on the edge of society, migrant workers called Bluebills and a Hooverville for depression-era families. After World War II when developers first conceived of creating a "Venice of the West," many said their dream would never last. However, in 1970, Ocean Shores became a city and today has entered its 50th year of development.
