This May, Timberland Regional Library (TRL) will be hosting Community Conversations, an opportunity to listen to the public's ideas, comments and concerns relative to library services in the communities it serves. The information gathered will be used to focus library services in areas of the greatest need and provide library materials and technological solutions patrons need now and into the future.

Participants will be able to provide input and ideas on four major library-related topics, including services and programs, technology, collections, and facilities. Suggestions of additional topics by those participating will be welcomed and appreciated. Those unable to attend will have the opportunity to provide comments on the TRL website at [www.TRL.org](http://www.TRL.org) and on computers in all Timberland libraries. **Dates, times and locations of Community Conversations include:**
